# Our Mission

KYCC (Koreatown Youth and Community Center) was established in 1975 to support a growing population of at-risk youth in Los Angeles. Today, KYCC is the leading multiservice organization in Koreatown, supporting children and their families in the areas of education, health, housing, community beautification, and finances. KYCC is committed to making Koreatown a safe and beautiful place to live and work.

The mission of KYCC is to serve the evolving needs of the Korean American population in the greater Los Angeles area as well as the multiethnic Koreatown community. KYCC's programs and services are directed toward recently immigrated, economically disadvantaged youth and families, and promote community socioeconomic empowerment.

KYCC is committed to making Koreatown a safe and beautiful place to live and work.

## Dear Friends of KYCC,

Koreatown is home to so many small businesses, residents, children, and families who make this community the place that KYCC has dedicated decades of service, since 1975. Through the years, we've experienced firsthand the change that our community has undergone and it has always been KYCC's mission to continue serving those evolving needs.

All of our worlds have been drastically altered by the past two years of living through COVID-19. We've learned to adapt to new technologies, smile through our face masks, and how to keep those around us safe amidst a continuing global pandemic. As we continue to navigate through the challenges brought on by COVID-19, our commitment to our community remains as strong as ever.

This year, KYCC launched its Rapid Rehousing Program to provide housing and wraparound services for vulnerable populations affected by COVID-19. This program is made possible by the Los Angeles Homeless Services Authority and collaborative partnerships with local community organizations serving unhoused populations.

Across all of our programs, we've been able to work with elders, youth, and families, and provide them with the services and care they need to overcome challenges they have faced this year. The clients that we serve at KYCC are primarily low-income, communities of color, and those who have been disproportionately affected by this pandemic. Through our services, we have been able to adapt our programs to continue providing necessary education and services, with the physical, mental, and financial health of our community at the forefront of it all.

To the many who call Koreatown their home, we thank you for making our community such a special place to live and work every single day. Through it all we are committed to providing the services necessary to ensure that our children and families will continue to thrive, now and for decades to come.

Sincerely,

**Johng Ho Song**  
Executive Director

KYCC has grown to a team of over 150 hard working, passionate employees across the agency's eight locations.

# Our Agency

When opening its doors in 1975, under the umbrella of the Asian American Drug Abuse Program (AADAP), Korean Youth Center began serving the community with two dedicated staff members. Over the past year, KYCC has grown to a team of over 150 hard working, passionate employees across the agency's eight locations.

# Vaccinating our Community Against COVID-19

With the release of the COVID-19 vaccine in early 2021, KYCC began partnerships with local partners to help get our community vaccinated. The COVID-19 pandemic has disproportionately affected low-income communities of color, a population that makes up the majority of KYCC's clients.

To work towards getting more residents of Koreatown vaccinated against COVID-19, KYCC began a vaccination program to provide **in-language support** and **public health education** in English, Spanish, and Korean, assisting eligible community members with vaccination appointments and education around COVID-19.

KYCC's vaccination program collaborated with Council District 10, Anderson-Munger YMCA, Clinica Romero, Woori Pharmacy, Korean American Federation of Los Angeles, and other community organizations to increase vaccine accessibility for Korea- town residents.

**KYCC's vaccination clinics and outreach efforts have resulted in 550 community members being vaccinated.**

KYCC Community Economic Development also took part in VaxUpLA, a city-wide public awareness campaign to promote equitable distribution and accessibility of the COVID-19 vaccine in the most impacted communities of color. Launched in six languages, the multi-platform media campaign reached over 28 million across the City of Los Angeles, and worked with Vision y Compromiso and Clínica Romero to complete door-to-door outreach to over 5,000 Angelenos.

Hear from community members and Koreatown residents who share why they chose to get vaccinated against COVID-19.

**“The hardest time was when our restaurant had to close. We only did take out. We didn’t know how we were going to make money. We never knew when we were going to open again...I’m happy I’m being vaccinated today because it means our restaurant is opening again. Things look better now.”**

- Sarang

Sarang, Hichul, and Francisco are co-workers and essential workers at a Koreatown restaurant.

**“My mother, [Gloria], has thrombosis and many other illnesses. Because of the pandemic, we had to suspend everything. We almost never left our home for an entire year. We didn’t have any visitors or any friends come over.”**

- Maddy

Maddy is Gloria’s daughter and caretaker. The two traveled to Seoul International Park for Gloria’s vaccine appointment and Maddy shared the immense relief she felt when her mother got vaccinated.

**“When we go outside, we wear gloves and use hand sanitizer when we do anything. This is not just about my health but to make sure I don’t harm others. This is something I made sure our kids and I would promise to do...I believe it is most important to have the mindset that we must be healthy so that we don’t harm others.”**

- Sang

Sang is a Koreatown resident who received her COVID-19 vaccine at a mobile clinic at Seoul

# KYCC Honored as 2021 Nonprofit of the Year

KYCC was named 2021 Nonprofit of the Year by Assemblymember Miguel Santiago of the 53rd Assembly District. California Nonprofit of the Year award is an opportunity for elected officials to celebrate the good work nonprofits are doing in their district and to demonstrate the collective impact of nonprofits. KYCC is one of 114 nonprofits honored across the state of California by state senators and assemblymembers for their contributions to the community.

## Volunteers

**29,968** VOLUNTEER HOURS DONATED BY OVER **600** VOLUNTEERS

# Client Profile - Vernal

**“Things have started beginning to feel like I'm making progress in my life.”**

“COVID has touched everybody’s lives and this is my story because of the fact that I became homeless through this...I am so glad that I have my own space now, a roof over my head, I have control over my own environment again,” says Vernal, a client of KYCC’s new Rapid Rehousing Program. “It’s better than living in the car, and this is my chance to get back on my feet again. As you can see, I’m trying to make it a home.”

Vernal is recently retired and moved to start a new life in Los Angeles. “I used to be a cancer research assistant at UCSF, up north in the Bay Area. I left the Bay Area to try to retire and live here in LA. Unfortunately it happened around the beginning of COVID. I was using my stimulus check to try and find a place. It was terribly hard because everything was closed down...eventually, I started running out of my stimulus money.”

Dealing with unsafe living conditions during the beginning of the pandemic and running out of stimulus money, Vernal had no choice but to live in his car. “I’m a long time survivor of AIDS and my immune system is compromised so I was concerned about catching [COVID]...I was so afraid that if I catch this virus, that would be the end of me,” says Vernal.

After living in his car since June of 2020, Vernal was eventually connected with KYCC and “that’s where things started falling into place”. With the help of KYCC’s Rapid Rehousing team, Vernal was able to receive keys to his own apartment. “It’s like the puzzle started connecting...Things have started beginning to feel like I’m making progress in my life.”

Through a grant from the Los Angeles Homeless Services Authority, KYCC began its Rapid Rehousing program which houses the most vulnerable populations at risk of COVID-19, including those who are fleeing domestic violence or living in interim housing, such as temporary shelters. Through partnerships with Safe Parking L.A., Abundant Blessings, Urban Alchemy, and Motorcycle Riders of LA, individuals and families who meet the housing criteria are identified. KYCC then works with them to identify their needs and find them housing, paying their rent for up to a year.

“While housed with KYCC, we teach them life skills, financial coaching, and provide weekly case management to remove any barriers they’re facing, and support them to become self-sufficient,” says Chivas Mays, Housing Services Manager.

With the help of KYCC to get back on his feet, Vernal looks forward to a time when he is able to safely explore Los Angeles and take part in all of the activities he dreamed of as a new Angeleno.

# Staff Profile - Jacqueline

**“All of the students that are here right now are eventually going to be leaders in our community...I know they’re going to be able to make this community a better place.”**

Jacqueline first came to KYCC at the age of 14 and was part of KYCC’s Youth Services Middle School Program. She then moved into becoming a part of the high school BRIDGE volunteer program where KYCC became “a big place of curiosity” for her. During her years in the program, Jacqueline shares that she was able to “learn from people around me that were my age, and people that were older than me who pushed themselves, and provided a new way for me to push myself.”

After graduating from high school, Jacqueline knew that she always wanted to come back to KYCC, a place that had given her so much growing up. She returned as an adult volunteer and is now the Youth Services College and Career Coach, where she works with the high school BRIDGE program.

“Being able to see common faces that I knew before, and even back then, I was able to meet people who really were striving for a lot of high things that I just didn’t see at the time. I was able to grow into that,” recalls Jacqueline when thinking about her full circle trajectory with KYCC.

She sees her work here with Youth Services as the opportunity to work with the future leaders in our community. “I am a product of Youth Services...all of the students that are here right now are eventually going to be leaders in our community and I see them, talk to them, and they have so many amazing ideas. I know they’re going to be able to make this community a better place.”

Brought up through KYCC’s Youth Services programs, Jacqueline is now able to give back to the students, mentors, and community who gave her so much when she first walked through KYCC’s doors.

## Stop AAPI Hate

Since the beginning of the COVID-19 pandemic, there has been an unprecedented rise in hate incidents against Asian American Pacific Islander (AAPI) communities across the nation. In an effort to combat hate against our communities, KYCC staff participated in a car caravan, community memorial services, and rallies in Koreatown to raise awareness about these incidents.

KYCC also partnered with Amazon Studios and KAFLA on a Stop Asian Hate billboard campaign. The billboard artwork was designed by local Asian American graphic artist Soyoung Heo, with the collaborative seeking to convey a message of peace and solidarity with the AAPI community about the need to put a stop to acts of anti-Asian hate and violence.

Thank you to Amazon, Annenberg Foundation, GoFundMe, Google, NBCUniversal Foundation, Nissan, Paramount Studios, Supreme New York, ViacomCBS, and Weingart Foundation for their support of KYCC in our efforts to uplift the voices of our community and say no to hate.

# Recovery Services

In 2019, KYCC launched its Recovery Services program, the first state-certified outpatient substance use disorder clinic in Koreatown, providing culturally and linguistically relevant treatment for those facing drug and alcohol problems.

Over the past year, Recovery Services has grown its capacity to now provide trilingual services in English, Korean, and Spanish, having grown their team to include a Spanish bilingual staff member. The program also provides four weekly group counseling sessions for clients, in Korean and Spanish.

This year Recovery Services was awarded a **California Youth Opioid Response** grant, and in collaboration with **KYCC's Prevention Education**, is working to increase the agency's capacity to serve youth with opioid use disorders and stimulant use disorders through youth-guided, culturally relevant data, outreach, and education.

# Milestones 2020-2021

## Youth Services Introduces Elementary Racial Justice Workshop Curriculum

KYCC Youth Services launched its first Racial Justice Workshop Curriculum for its Wilton elementary school program. The workshop curriculum aimed to create a safe environment where students could learn about race, identity, and become advocates for social justice. The curriculum continued through the end of the academic year and will be built upon for continuing years.

## Recovery Services and KHEIR Clinic Provide Joint Medication-Assisted Treatment

KHEIR Clinic and Recovery Services have teamed up to provide patients with medication-assisted treatment (MAT). With opioid addiction and abuse becoming a serious health crisis in our community, MAT is a medical alternative treatment to help escape the pain caused by drug or opioid use disorder. Through a combination of prescription and counseling of auxiliary drugs, patients are treated safely for their disabilities and get the help they need to return to their daily lives.

## Prevention Education Works to Ban Flavored Tobacco Products

KYCC's Los Angeles Youth First Tobacco Coalition (LAYFTC) worked with local middle school and high school students to advocate for banning flavored tobacco in the community. The coalition met with decision makers throughout Los Angeles City to educate them on flavored tobacco issues affecting youth and schools, and created youth-led campaigns for further advocacy and awareness.

## Clinical Services Launches COVID-19 Emotional Support Helpline

Clinical Services launched a trilingual COVID-19 Emotional Support Helpline for anyone struggling with stress and anxiety due to the pandemic. Supported by the Federal Emergency Management Authority (FEMA), KYCC provided crisis counseling in English, Korean, and Spanish over the phone and via videoconference, for anyone free of charge regardless of age, immigration status, or insurance status.

## Climate Action Corps Fellows Join Environmental Services

Two Climate Action Corps fellows, Miles Kim Parr and Krystle Yu, joined KYCC's Environmental Services at the start of 2021 to support local climate action projects on the frontlines and in low-income communities across Los Angeles. The Fellows worked on projects such as the Koreatown Canopy Campaign and Tree Ambassador Program, aiming to grow the city's urban forest through community engagement and education.

## Kids Town Celebrates Child Abuse Prevention Month

Across the agency, KYCC celebrated April's Child Abuse Prevention Month to bring awareness to child maltreatment and neglect, and ways that our programs and services work to strengthen the lives of children and families. Kids Town preschoolers and their families created blue ribbons in support of the month, learning about ways to promote children's well-being and how we can all support families in our community.

## Koreatown Storytelling Program Hosts Portrait Session at St. James Manor

In partnership with Las Fotos Project, Koreatown Storytelling Program hosted a portrait session for elders at St. James Manor in Koreatown. Community elders had their portraits taken and listened to KSP intern, Evan Kim, play Bach Cello Suites for the residents in the garden courtyard. Over the course of the year, Las Fotos Project trained KSP students in portraiture, photojournalism, and photo essays.

## Community Economic Development Launches VITA Season

KYCC's VITA program prepared over 2,500 tax returns across three locations, made up of KYCC, Bresee Foundation, and El Nido South Los Angeles. Due to COVID-19, the VITA team had to make changes to their service delivery model, which included a digital upload system for tax clients and remote volunteering for over 200 VITA volunteers.

# Our Services

## Kids Town

KYCC's Kids Town Preschool provides quality early childhood education for 72 children from the ages of 2.5 to 5 years. Our progressive philosophy and trilingual curriculum emphasizes creative exploration in a developmentally appropriate environment, where children can learn, grow, and develop at their own pace. Activities are designed to promote high self-esteem, independent learning, and lifelong feelings of competence. The center is open Monday through Friday, from 7:00 a.m. to 6:00 p.m., year-round to meet the needs of working families.

## Clinical Services

Clinical Services offers culturally and linguistically appropriate counseling services for low-income children, youth, and their families. Individual and family therapy, case management, and medication support services are provided in outpatient, school-based, and in-home settings. Clinical Services also offers educational workshops, parenting groups, parent and me groups, youth activity groups, parent self-care events, and family events.

## Prevention Education

Prevention Education is funded by the County of Los Angeles Department of Public Health. Our goal is to prevent and reduce underage use of alcohol, marijuana, tobacco, and other drugs in the Koreatown, Pico-Union, Westlake, Metro Los Angeles areas, and Culver City, and to encourage local community members to advocate for a safe and healthy community. We aim to address issues of retail access and availability of alcohol, marijuana, and tobacco, as well as transform the social norms that contribute to underage alcohol, marijuana, and tobacco use.

## Environmental Services

The vision of Environmental Services is to engage communities in creating safe, healthy, and beautiful neighborhoods. KYCC works with residents and groups to plant, distribute, care for and learn about our community trees. KYCC beautifies Koreatown and surrounding neighborhoods by leading community cleanups and service projects,

and increasing safety by removing graffiti free of charge, seven days a week. Through neighborhood beautification and environmental education, KYCC is helping to make Los Angeles a cleaner, greener, and more liveable city.

## Youth Services

Our academic support programs supplement school education and foster independent learning through out-of-school-time services for low-income children. Youth development and case management programs provide family support, life skills, leadership experience and enrichment for youth to become active community members. Our programs include the K-12 academic, RISE middle and high school programs, our Summer Day Camp, and high school volunteer/leadership programs.

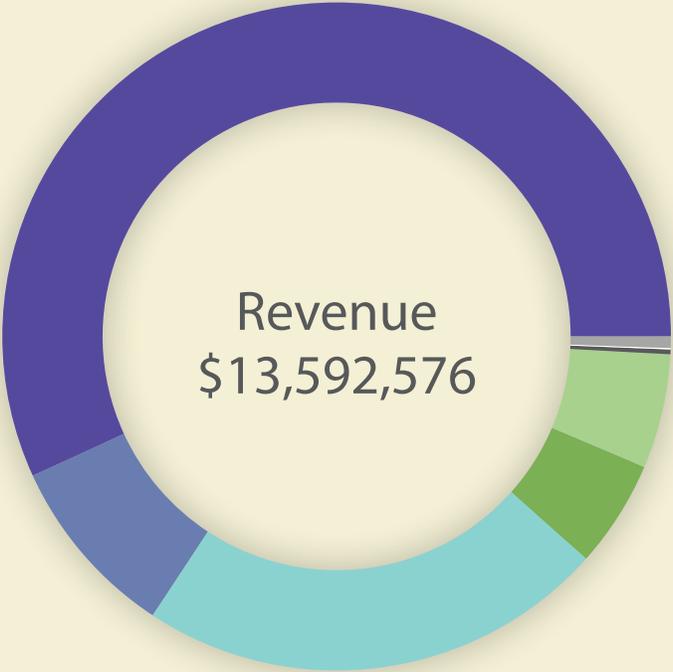

## Community Economic Development

Community Economic Development programs and services focus on building community wealth by helping families achieve financial stability. We offer financial education, individual case management, and matched savings accounts to help families increase financial capability and reach their individual goals. KYCC owns 209 low-income housing units at 8 locations, providing affordable housing and social services for the tenants. KYCC's Free Tax Prep Los Angeles campaign educates eligible households about the Earned Income Tax Credit and provides free tax assistance to nearly 13,500 households. Our Small Business Development program provides free technical assistance to small businesses and entrepreneurs to provide economic opportunities in our community. KYCC also offers utility assistance programs to help non-English speakers resolve their billing issues.

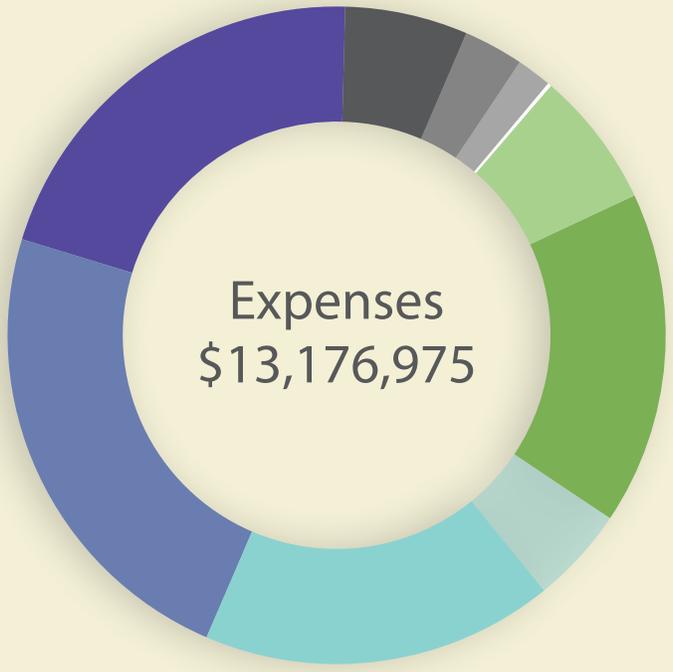

## Recovery Services

KYCC's Recovery Services is an outpatient treatment program providing help for people facing drug and alcohol problems. Services are available to youth and adults age 12 and up. Treatment is individualized according to each person's needs and preferences toward successful long-term recovery and includes counseling, case management, information and referral, and recovery support.
